Kindergarten Unit 3 — Dates: 11/11/2024 - 12/16/2024

Rationale for Unit 3

Throughout Unit 3, learners use concrete objects to count and to represent addition and subtraction. Addition and subtraction, including solving word problems using objects and drawings, is extended to up to 10 objects in Unit 6. Learners will connect counting up to addition and counting back to subtraction. Representing objects as drawings and then numerals leads them towards building fluency (accuracy and efficiency) for addition and subtraction within 5. Using 5 as a benchmark is an important first step to building fluency to 10 by the end of first grade. Learners will also use counting to correctly name 2-D shapes based on the number of sides.

Unit 3 Description & Expectations

Days of Instruction: 24 days

Unit Completion Date: 12/16

Unit Topics/Themes: Addition and Subtraction Within 5 and Shapes

[Topic: Add Within 5](#)

[Topic: Two-Dimensional Shapes](#)

[Topic: Subtract Within 5](#)

[Topic: Add and Subtract Within 5](#)

[Topic: Unit Review and Unit Assessment](#)

Whole Group Instruction Overview	Differentiation: Teacher Table Overview	Differentiation: Independent/ Small Group Practice Overview
Guidelines		
40-45 minutes of daily instruction using Core Resources	70 minutes ELA/Math Center time	
<p>Supporting Positive Learning Habits: Unit 3:</p> <p>Number Sense Making Routines: (5-10 minutes daily) Number sense is built through experiences. Vary your sense making routines based on the needs of your classroom. They may be a whole group activity, but they also may be done as a small group depending upon the need. Example areas of focus: Verbal Counting, Object Counting, Cardinality, Subitizing, Spatial Relationships, One/Two More & Less, Benchmark Numbers (5), Part-Part-Whole, Magnitude, etc.</p> <p>Core Resource for Whole Group Instruction: Ready Classroom Math (30-45 minutes daily)</p> <p>Ready Classroom Math design & expectations:</p> <ul style="list-style-type: none"> ● Strategy Lessons - Focus on helping students persevere in solving problems, discuss solution strategies, and compare multiple 	<p>Number of groups to meet with each day: two</p> <p>When planning for differentiation, it is important to first think about what each student needs. You may have different focuses for different groups of students. Below are suggestions to consider when planning for small group differentiated instruction.</p> <p>Gifted Students: When planning for students who are gifted, consider differentiating the content, process or product.</p> <p>Tier I Remedial Groups: When</p>	<p>Activities should be aligned to specific skills & standards addressed during whole group instruction and practice of fluency standards.</p>

representations through the *Try-Discuss-Connect* routine. Strategy Lessons are taught over multiple days (usually 5 days) and consist of different sessions. All sessions start with a Number Sense Routine designed to support the development of early numbers sense and counting concepts. Students also learn to talk about math and describe their thinking through various routines.

- **Explore Session(s)** follow a *Discover It-Investigate It* routine and draw on students' prior knowledge and make connections to new concepts.
- **Develop Session(s)** follow the *Try-Discuss-Connect Routine* and develop strategies and understanding through problem solving and discourse.
- **Refine Session(s)** focus on building independent problem solving through *Making Connections* and *Applying (It) Strategies* to new problems. Students work independently while the teacher monitors performance and differentiates instruction.

Try - Discuss - Connect Routine is primarily used in Develop Sessions in Ready Math. Each Step in this routine will have expected Language Routines, Teacher Moves and Conversation Tips. *Language Routines* are predictable, repeatable formats that help students process word problems and communicate their growing understanding. *Teacher Moves* are powerful facilitation techniques to guide conversations in which students talk with each other rather than responding to the teacher. *Conversation Tips* are specific hints that show students what it means to engage in academic discourse. The six tips show students what it means to participate in academic discourse: listening attentively, explaining ideas, justifying, building

planning for remedial work (additional work on grade level concepts), identify your Essential Understandings, Objectives, Standards, skills being taught, and Learner Outcomes, then, anticipate the most common unique needs and common misconceptions. Doing this will help you to plan effectively, and form groups based on daily exit tickets and Ready Unit Prerequisite Report. Support students using scaffolding and/or additional practice for grade level concepts and skills.

Tier II or Tier III Remedial Groups: When planning your grade level instruction for students that are in Tier II or Tier III considerations of each individual students' Math Intervention Plan need to be

on the ideas of others, disagreeing respectfully and making connections.

- **Try It** - The teacher displays the *Start* question to draw on prior knowledge to the day's session. The teacher guides students in making sense of the problem, and to slow down to recognize and understand important information in the picture. Teacher displays the picture and uses:

- *Language Routines* - Three Reads, Co-Crafted Questions, Notice/Wonder and Say It Another Way
- *Teacher Moves* - Turn & Talk and Individual Think Time (*Typically 10 seconds to 2 minutes*)

Students apply what they have learned while making sense of the problem to represent the scene and begin solving.

- **Discuss It** - Students work in pairs to share their thinking - even incomplete thinking. Students should analyze their representations and strategies while sentence frames are used to help them while making sense. The teacher strategically selects and sequences students' representations and strategies based upon the learning goal of the lesson.

While circulating the teacher should use:

- *Language Routines* - Compare & Contrast and Collect & Display
- *Teacher Moves* - Turn & Talk, Individual Think Time and Four Rs (*Repeat, Reword, Rephrase, Record*)

Selected students present and explain their solution methods and listen to critiques of others. The teacher facilitates the discussion and the class

taken. Interventions and number sense relationships should be leveraged to support students with grade level content (bridging foundational concepts to support students' work at grade level content). Resources should be aligned to core content instructional resources (ie, Tools for Instruction, Fluency Skills & Practice pages, Prerequisite Lessons, Reteach Activities, Vocabulary pages, etc.), while a direct explicit connection between intervention strategies and grade level content is built.

looks at highlighted strategies in the *Picture It* and *Model It* sections.

● **Connect It** - The teacher and students connect understanding they've developed in the *Try It* problem to new representations. Students make connections between representations and strategies they discussed and solidify these connections as they complete the *Connect It* problems.

Students then apply their understanding to new situations. The teacher should use:

- *Language Routines* - Collect & Display and Compare & Connect
- *Teacher Moves* - Turn & Talk, Individual Think Time and Four Rs

Closing: (2-5 minutes daily)

The closure should be directly related to the goal of the lesson. Formal closure to lessons may consist of synthesizing information learned during the lesson that relates to the objective. For example, students could share with the class something new that they learned that day (the question should be detailed and related to the goal/objective), complete an exit ticket (related to the goal/objective), reflect on what challenged them (related to the goal/objective), etc.

Preparation for College, Careers, and Beyond																			
Career Ready Practices	Personal Financial Literacy (9.1), Career Awareness, Exploration, and Preparation (9.2), Life Literacies and Key Skills (9.4)																		
<p>CRP1. Act as a responsible and contributing citizen and employee.</p> <p>CRP2. Apply appropriate academic and technical skills.</p> <p>CRP3. Attend to personal health and financial well-being.</p> <p>CRP4. Communicate clearly and effectively and with reason.</p> <p>CRP5. Consider the environmental, social and economic impacts of decisions.</p> <p>CRP6. Demonstrate creativity and innovation.</p> <p>CRP7. Employ valid and reliable research strategies.</p> <p>CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.</p> <p>CRP9. Model integrity, ethical leadership and effective management.</p> <p>CRP10. Plan education and career paths aligned to personal goals.</p> <p>CRP11. Use technology to enhance productivity.</p> <p>CRP12. Work productively in teams while using cultural global competence.</p>	<p>9.4.2.CI.1: Demonstrate openness to new ideas and perspectives</p> <p>9.4.2.CI.2: Demonstrate originality and inventiveness in work</p> <p>9.4.2.CT.2: Identify possible approaches and resources to execute a plan</p> <p>9.4.2.CT.3: Use a variety of types of thinking to solve problems</p> <p>9.4.2.IML.1: Identify a simple search term to find information in a search engine or digital resource.</p> <p>9.4.2.IML.2: Represent data in a visual format to tell a story about the data</p> <p>9.4.2.TL.1: Identify the basic features of a digital tool and explain the purpose of the tool</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <thead> <tr style="background-color: #e0e0e0;"> <th colspan="2" style="text-align: center; padding: 2px;">Personal Financial Literacy (Standard 9.1)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center; padding: 2px;">Strand A</td> <td style="padding: 2px;">Income and Careers</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand B</td> <td style="padding: 2px;">Money Management</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand C</td> <td style="padding: 2px;">Credit and Debt Management</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand D</td> <td style="padding: 2px;">Planning, Saving, and Investing</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand E</td> <td style="padding: 2px;">Becoming a Critical Consumer</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand F</td> <td style="padding: 2px;">Civic and Financial Responsibility</td> </tr> <tr> <td style="text-align: center; padding: 2px;">Strand G</td> <td style="padding: 2px;">Insuring and Protecting</td> </tr> <tr style="background-color: #e0e0e0;"> <td colspan="2" style="text-align: center; padding: 2px;">Career Awareness, Exploration, and Preparation (Standard 9.2)</td> </tr> </tbody> </table>	Personal Financial Literacy (Standard 9.1)		Strand A	Income and Careers	Strand B	Money Management	Strand C	Credit and Debt Management	Strand D	Planning, Saving, and Investing	Strand E	Becoming a Critical Consumer	Strand F	Civic and Financial Responsibility	Strand G	Insuring and Protecting	Career Awareness, Exploration, and Preparation (Standard 9.2)	
Personal Financial Literacy (Standard 9.1)																			
Strand A	Income and Careers																		
Strand B	Money Management																		
Strand C	Credit and Debt Management																		
Strand D	Planning, Saving, and Investing																		
Strand E	Becoming a Critical Consumer																		
Strand F	Civic and Financial Responsibility																		
Strand G	Insuring and Protecting
